PROFESSIONAL SUMMARY

Junior Software Developer with experience across web and mobile development using Java, Spring Boot/Security, React, and SQL. Built and contributed to team projects including an e-commerce website and a nursing home management system, with a focus on clean code, REST APIs, testing, and practical problem-solving

EDUCATION

Diploma in ICT in Applications Development

Feb 2022 – Dec 2025

Cape Peninsula University of Technology | Cape Town

- Completed

PROJECTS

E-commerce project

Feb 2025 – Nov 2025

CPUT

- Built a responsive e-commerce website for online clothing purchases (desktop/tablet/mobile).
- Implemented UI for product browsing, navigation, and customer interactions.
- Developed product listing/catalog features and improved usability with responsive layouts.
- Collaborated in a 5-person team (planning, testing, debugging) and resolved UI/functionality issues.

Android Shopping Cart Application

Feb 2025 – Nov 2025

CPUT

- Built an Android shopping cart app (Java) with cart workflows: add/remove/update items and total price calculation.
- Developed a Spring Boot REST API to support shopping cart operations and data handling.
- Implemented authentication/authorization using Spring Security.
- Wrote JUnit tests for business logic and API/service-layer functionality.
- Tested and debugged for usability and performance.

WIL- Project

Jan 2025 – Dec 2025

CPUT

- Built a nursing home management application to manage patient information and daily care activities.
- Developed Java backend services and a React frontend for an interactive, responsive UI.
- Implemented core workflows including patient record management and basic scheduling.
- Integrated frontend and backend via RESTful APIs, ensuring reliable data flow between components.
- Collaborated in a team environment (development, testing, debugging) and applied OOP principles.

SKILLS

Tools & Technologies: IntelliJ NetBeans Eclipse Git GitHub

Programming Languages: Java Python JavaScript SQL Kotlin

Databases: MySQL

Frameworks: Spring Boot Spring Security React

Concepts: OOP

Web: HTML5 CSS3

Soft Skills: Problem-solving communication time management teamwork adaptability

LANGUAGES

English Isizulu Setswana
